E-1. NON-BINDING LETTER OF INTENT

SIERRA BASIN WATER AUTHORITY
3300 LedgeWood Parkway, Reno, NV 89512

September 15, 2025

Halide Loop Technologies, Inc.
2290 Vassar Industrial Way, Suite 140
Sparks, NV 89431

Re: Letter of intent — HL-2 sorbent membrane module evaluation

To the officers of Halide Loop Technologies, Inc.:

This letter records the Authority's interest in evaluating the HL-2 sorbent membrane module for possible future use on the Authority's geothermal return streams.

Subject to the conditions below, the Authority intends to negotiate in good faith toward a pilot deployment agreement:

1. successful completion, at the vendor's expense, of a bench validation on Authority brine samples, demonstrating lithium recovery of not less than 85 per cent of theoretical loading over 200 cycles;
2. review and approval of the results by the Authority's Engineering Committee;
3. availability of funds in the Authority's capital programme for the fiscal year in which any deployment would occur; and
4. compliance with the Authority's competitive procurement requirements, which may require a public solicitation open to other vendors.

This letter is a statement of intent only. It is not a contract, it creates no obligation on either party to enter into any agreement, and it commits no funds. No price,

quantity, or schedule has been agreed. Either party may discontinue discussions at any time and for any reason.

Sincerely,

/s/ W. P. Nkemelu
Warren P. Nkemelu, Ph.D., P.E.
Principal Research Engineer
Sierra Basin Water Authority

E-2. PILOT DEPLOYMENT MEMORANDUM OF UNDERSTANDING — DRAFT

DRAFT — FOR DISCUSSION ONLY — NOT FOR EXECUTION

Circulated by counsel for Pyramid Ridge Geothermal LLC, August 2025. Terms in brackets remain open.

MEMORANDUM OF UNDERSTANDING

Between PYRAMID RIDGE GEOTHERMAL LLC ("Host") and HALIDE LOOP TECHNOLOGIES, INC. ("Developer").

1. Purpose. The parties wish to explore a pilot deployment of Developer's HL-2 sorbent membrane skid on Host's Unit 2 brine return line.
2. Scope. Developer would supply, install, and operate a [12]-module skid rated at [40] tonnes LCE per year. Host would supply brine, power, and site access.
3. Term. [24] months from commissioning, subject to earlier termination by either party on [90] days' notice.
4. Consideration. [Commercial terms to be agreed. Host has made no commitment as to offtake, pricing, or cost sharing.]
5. Conditions precedent. Execution of this Memorandum is conditioned on (a) Host's board approval, (b) Developer's demonstration of [500] hours of continuous operation at the required recovery rate, and (c) resolution of the water rights question identified by Host's counsel on [date].
6. Status. This Memorandum is not binding on either party unless and until signed by authorised representatives of both.

E-3. ACKNOWLEDGEMENT OF APPLICATION — NEVADA CRITICAL MINERALS INNOVATION FUND

NEVADA CRITICAL MINERALS INNOVATION FUND

Office of Economic Development

775 Carson Vista Boulevard, Carson City, NV 89701

September 29, 2025

Halide Loop Technologies, Inc.

Attn: Dr. Ilona M. Brasch

Re: Application NCMIF-2025-0417, "Wellhead lithium recovery demonstration"

Amount requested: \$1,450,000

This letter acknowledges receipt of your application on September 22, 2025. Your application has been found administratively complete and has been forwarded for technical review.

Current status: UNDER REVIEW. Award decisions for this cycle are expected to be announced in the second quarter of 2026. This acknowledgement is not an award, is not a commitment of funds, and confers no right to funding. Applicants are advised not to incur costs in reliance on a pending application.

E-4. CORRESPONDENCE — PYRAMID RIDGE GEOTHERMAL LLC

From: Dale Whitlock, Operations Manager, Pyramid Ridge Geothermal LLC

To: Ilona Brasch

Date: July 11, 2025

Subject: Re: slipstream — rest of the year

Ilona,

Confirming what we discussed on site. You are welcome to keep the skid on the Unit 2 slipstream through the end of the year on the same informal terms — no charge, no paperwork changes, we keep a copy of your daily logs.

I will say the same thing I said in March: the numbers you are getting are better than anything the two vendors we tried before you produced, and the fact that the unit has not needed a shutdown since you installed it is the part that gets my attention. Whether we do anything commercially is above my level and will depend on next year's capital plan.

Dale

Note to file: the site access arrangement described at E-4 is informal and unpriced. No purchase order, service agreement, or offtake agreement is in place with any party as of the date of this filing.
